

Meeting called to order by Chairperson Corby Stark at 4:45 pm

Streets and Building Committee Members present on roll call: Corby Stark, Kellie Flaherty, Aimee Newbauer

Public Comments:

Discussion and possible action regarding municipal building technical support costs. Bill for technical support services submitted by Jim Skemp was reviewed. **Motion by Kellie Flaherty to pay for services by utilizing \$880.00 from the Library-Renovation Outlay Account and \$840.00 from the Municipal Building-Renovation Outlay Account. Second by Corby Stark. All in Favor. Carried.**

Discussion and possible action regarding Petition to repave Pearson Road (Raskin Bay). The committee members reviewed a Petition to repave Pearson Road that was signed by property owners who utilize the roadway. Mr. Robert Brullo also shared with the committee pictures of some of the roadway damage due to wear over time. He also inquired about when the road would be repaved next. David Patterson (DPW) communicated that the Village budgets \$75,000 annually for road repairs however with the number of roads and the price to make repairs being considerably higher than the allotted amount, not all repairs can be made. In the spring and fall the Village crew does patch roads utilizing equipment rented from the county to make small repairs. Dave Patterson, (DPW) also brought to the attention of the board the need to make repairs on fourth avenue east and Indianhead shores which is utilized more than Pearson Road. It was also noted that when Park Drive was repaved the reason Pearson Road was not repaved was because the road is narrower thus requires smaller equipment to repave. If the Village was to repave the road to make it wider, it would be challenging as cabins are very close to the roadway and the amount of green space would be reduced. No action was taken but David Patterson (DPW) did note that in the future if they do start seeing issues with the roadway to phone and he will come out to do an inspection. The Village crew will be doing some fall patching as well in the next few weeks and will fix some of the areas on Pearson Road that were discussed.

Discussion regarding Village owned street alleys and property throughout the Village. The committee inspected the Village owned property on Mill Street. Jim Duncan shared his thoughts on potentially surveying the lot. The committee inspected the street alley off Second Avenue East. With a growing concern of parking throughout the Summer, Jim Duncan shared that if this Street alley was surveyed, paved and light, people who come to town could park in the parking lot north of the municipal building and can safely walk to businesses. The Committee also inspected the street alley stretching from Second Avenue West north to First Avenue West. Jim Duncan pointed out the unkept dumpster that are in the alley and the need for surveying and repaving the alley. The Committee also inspected the street alley on Basil Street. This is an alley that the Village does plow, however there are some overgrown trees, thus refuse trucks are not able to pick up dumpsters on the backside of the motel. David Patterson (DPW) noted that he would contact the homeowner regarding trimming the trees covering the street alley. No action was taken.

Motion to adjourn by Kellie Flaherty. Seconded by Aimee Newbauer. Carried. 5:40 p.m.

Lori Duncan, Village Clerk Treasurer
Amy VanDeBrake, Deputy Clerk Treasurer
Unapproved Minutes
